

# REVOLUTION EXPRESS Non-Linear / Linear – Data and Video

**RevolutionExpress**  
DI Solution for data and Linear Control in one solution. Work live from attached media – no ingest requirement and always real time. Instantly switch to control linear devices should the suite need to be re-purposed from session to session.

YoYo (2) in a separate room can re-size and lay-off independently from graded material thus making the most of the grading suite. Can also be used for prep and ingest management of tape based material to data files.
