

in Dean Street now...

NON-LINEAR SOFTWARE GRADING

...start a REVOLUTION

over 50 layers of complex secondaries in REAL TIME

instantly switch, amend and compare between multiple versions

always work in full resolution, no proxies and never rendering

lay off multiple versions without delay and outside of the suite if required

never keep the client waiting following any amend any number of times

Pandora have opened a demo suite, sales office,
training academy and service support facility
on the corner of Dean Street and Carlisle Street.

Come and try out the REVOLUTION for yourself...
